

## **GUIDELINES ON GAS GEYSER INSTALLATION**

### **Model of Gas Geyser:**

Suitable brand of conforming to IS 15558:2005, we have recommended following brands:

1. RACOLD (M/s. Racold Thermo Ltd ,Pune)
2. AQUA HOT (M/s. Apex Consumers Appliance Pvt. Ltd ,Mumbai)
3. UJALA king, UJALA Diana, Blow Hot (M/s.Gorani Industries Ltd.Indore)

### **Gas geysers Location:**

Gas Geysers should only be installed in areas like:

- i. Kitchens, Living rooms, Utility Rooms, Halls and Passageways if flueing and ventilation can be achieved.
- ii. Bedrooms /bed-sitting rooms provided room volume is greater than 20 cubic meters and ventilation requirement are fulfilled.
- iii. Gas Geyser should be installed at such a height that it can be switched off easily.
- iv. No Gas Geyser is permitted to be concealed.

### **Advantages of installing Geyser in Kitchen:**

- a. Safe, as chances of asphyxiation due to emission of fumes inside the bathroom is eliminated.
- b. Hot water will be available in the Kitchen pipe for washing oily kitchen utensils.

### **Dangers of installing Geyser in Bathroom:**

- i. Greater chances of accumulation of fumes inside the bathroom, which can lead to suffocation/ asphyxiation.
- ii. It is not safe to run gas pipe across the length of the house as any leak from joints will be dangerous.

Interested customers can contact our customer care on 1917 or email enquiry to support@mahanagargas.com giving full details of CRN no. address etc. Our authorized After Sales Contractor will then visit the site to ensure that the safety requirements are met. If the requirements are not met, the geyser point will not be connected /commissioned.

**Note: Do not install Gas Geyser through unauthorized personnel.  
If anyone approaches you please contact our customer cell immediately.  
(Authorized Mahanagar Gas personnel do not install Gas Geyser in bathroom)**
